

Letter of Recommendation

To Whom It May Concern,

It is my pleasure to recommend Wyatt “Huaye” Zeng for your consideration. I have been working closely with Wyatt throughout his co-op placement’s duration on the CIBC Gallant MacDonald Team from January through April 2023. I have thoroughly enjoyed my time working with Wyatt and can attest to him being a truly valuable asset to our team.

Wyatt has shown his expertise particularly through his development work. He has blown past all expectations and has continued to deliver quality work throughout his entire term. Wyatt’s has worked with several APIs, created a data analytics package containing over 100 visualizations, was able to improve automations, and has created the foundation to our core code structure. Wyatt has made use of a plethora of Data Science tools including Pandas, Numpy, Seaborn. Wyatt is well organized and an extremely fast learner who is also attentive to detail and has tackled every task I’ve thrown his way.

I have led several co-ops through their term cycles while on the CIBC Gallant MacDonald Team and Wyatt’s work ethic, problem solving, and quality of work has been, without a doubt, the strongest. It was an absolute pleasure working with Wyatt and can guarantee that he would be a fantastic asset to your firm.

Please feel free to contact me if you wish to discuss Wyatt’s qualifications and experience further. I’d be happy to expand on my recommendation.

Ryan Oliveira
